Front-End Developer

As a front-end developer proficient in JavaScript, HTML, Node.js, React.js, and CSS, I specialize in crafting engaging and user-friendly web interfaces. My expertise extends from structuring content and styling with finesse to building dynamic functionalities. Through the SheCodes program, I've honed my skills in software development, ensuring top-notch user experiences. Additionally, I bring expertise in other tools like Bootstrap, API integration, and more. These skills are geared towards creating responsive and intuitive web applications that captivate users and drive business growth. Ready to elevate your digital presence? I'm the developer you need.

Projects

1. Iced Caramel Macchiato Website:

- Developed a user-friendly website to guide users in preparing an Iced Caramel Macchiato recipe.
- Designed and implemented an intuitive interface using HTML, CSS, and JavaScript to direct users to an external website with the recipe details.
- Integrated navigation elements and clear instructions to facilitate seamless user experience and recipe discovery.

2. Calculator App:

- Designed and developed a web-based calculator application using HTML, CSS, and JavaScript.
- Implemented basic arithmetic operations (addition, subtraction, multiplication, division) with intuitive user interface elements for input and output.
- Ensured functionality and accuracy of calculations while maintaining a clean and responsive design for optimal user experience.

3. Weather App:

- Created a dynamic weather application that provides real-time weather information based on user input or geolocation using HTML, CSS, JavaScript, and a weather API.

- Implemented features such as current weather conditions, hourly and daily forecasts, and location-based weather updates.
- Designed an intuitive user interface with interactive elements to display weather data effectively and enhance user engagement.

Core Competencies

- Responsive Design Implementation
- Time Management and Prioritization
- Debugging and Troubleshooting Proficiency
- Proactive Learning and Skill Development
- Code Refactoring and Optimization
- Attention to Detail in Design and Code
- Creative Problem-Solving Abilities
- UI/UX Prototyping and Wireframing
- Adaptability to Changing Requirements
- SEO Best Practices Integration
- Effective Communication with Team Members

Education

- **University of Venda** Feb/2019 – Nov/2023
Bachelor of Laws (LLB)
- **Tswasongu Secondary School** Jan/2015 – Nov/2018
Grade 12
